Lodi, OH | M: +1 6146221040 | onkar.jadhav.usa@gmail.com | <https://www.linkedin.com/in/on3009/>

EDUCATION

INDIANA UNIVERSITY – BLOOMINGTON

Master of Science in Computer Science | Cumulative GPA: 3.77/4.0

Bloomington, IN
August 2022 - May 2024

SAVITRIBAI PHULE PUNE UNIVERSITY – PUNE

Bachelor of Engineering in Computer Engineering | Cumulative GPA: 3.75/4.0

Pune, MH, India
August 2017 – May 2021

SKILLS

Python, JavaScript, HTML/CSS, SQL, C++, C#, HLSL, WebGL, OpenGL, JAVA, C, R, Shell Script, MongoDB; Git, React, Node, OpenCV, TensorFlow, APIs, SpringBoot, Pandas, Express; DataStage, SPSS, DBVisualizer, Postman, GitHub, GitLabs, JIRA, Harness, Confluence, Azure, AWS, Unity, Unreal Engine, MySQL Server, IBM Secret Server.

EXPERIENCE

WESTFIELD INSURANCE COMPANY

Data Engineer

Westfield Center, OH
Jul 2024 – Present

- Oversee the continuous ETL process for loading USPS (geopolitical and territory) and VIN (Vehicle ID Number) data into the database.
- Provide data feeds for Surety, Personal, and Commercial Lines to the Office of Foreign Asset Control (OFAC) to assist in identifying invalid, criminal, or terrorist-affiliated insurance registrations at Westfield.
- Manage views on the Netezza Unix server for data analysis and reporting.
- Supply data feeds for Personal and Commercial Lines to the ODEN Policy Terminator tool, streamlining the automated process for policy deletion forms.

WESTFIELD INSURANCE COMPANY

Data Warehousing Specialist Intern

Westfield Center, OH
May 2023 – November 2023

- Resourced and decommissioned 2 databases to eliminate data duplication, release resources, and reduce CPU/memory load.
- Automated yearly purge process of Claims records to reduce the manual process time by about 80 percent.

JNANA PRABODHINI (Educational resource center backed by the institute)

Game Developer Intern

Pune, MH, India
December 2021 – March 2022

- Developed two games in Unity, including 23+ C# scripts, and managed projects on GitHub and Google Play Console, overseeing version control, testing, and deployment.

NUANCE COMMUNICATIONS

QA Intern

Pune, MH, India
June 2021 – August 2021

- Implemented 10 Python automation scripts to test RESTful APIs, reducing manual testing time by 80% for a conversational AI web application that uses NLP technology.
- Gained agile methodology and project management tool experience (JIRA, Harness, Confluence, GitLab) while working with a 10-member team that enhanced my skill set.

PROJECTS

GAME DEVELOPMENT IN UNITY ([link](#))

January 2024 – May 2024

- Showcased scripting in C# for animation using blend trees, movement and environment control to create an interactive combat game.

BOOKING MANAGEMENT WEB APPLICATION ([link](#))

January 2023 – May 2023

- Achieved 80% improved effectiveness and 25% faster page load speed as a MERN full-stack developer by expediting front-end features and managing the project in JIRA and GitHub.

3D VISUALIZATION IN UNITY ([link](#))

October 2022 – December 2022

- Constructed a 3D environment with Unity, using 6 C# scripts for object modeling, rendering, animation, and incorporated 2 interaction algorithms, animation scripts, and spline-based camera movement in the Unity environment.
- Improved 3D object rendering by 40%, reduced load time by 15%, and added lighting with Phong's illumination equation by writing custom GPU shaders.
